* Pay rates for Current Distribution. For the interest rates applicable to the next distribution date, please see https://www.salliemae.com/about/investors/data/SMBabrate.txt.

TOTAL CPR $=1-\left(\frac{A P B}{P P B}\right)^{\left(\frac{12}{M S C}\right)}$

APB = Actual period-end Pool Balance
PPB = Projected period-end Pool Balance assuming no prepayments and no defaults
Pool Balance $=$ Sum(Principal Balance + Interest Accrued to Capitalize Balance )
MSC = Months Since Cut-Off

## Since-Issued Total Constant Prepayment Rate (CPR)

Since-Issued Total CPR measures prepayments, both voluntary and involuntary, for a trust student loan pool over the life of a transaction. For each trust distribution, the actual month-end pool balance is compared against a month-end pool balance originally projected at issuance assuming no prepayments and defaults. For purposes of Since- Issued Total CPR calculations, projected period end pool balance assumes in-school status loans have up to a six month grace period before moving to repayment, grace status loans remain in grace status until their status end date and then to move to full principal and interest repayment, loans subject to interim interest or fixed payments during their in-school and grace period continue paying interim interest or fixed payments until full principal and interest repayment begins, all other trust loans are in full principal and interest repayment status, and that no trust loan in full principal and interest repayment moves from full principal and interest repayment status to any other status

## Weighted Average Coupon

wAC1 $=\frac{\left((C I R)^{*}(A P B)\right)}{A P B}$

$$
w A C 2=\frac{\left((A P C L)^{*}(A P B)\right)}{A P B}
$$

$\frac{\left((A C T L)^{*}(A P B)\right)}{A P B}$

APB = Actual period-end Pool Balance
CIR = Average of the Contractual Interest Rate (1)
APCL = Average of the Applicable Interest Rate (2)
ACTL = Average of the Actual Interest Rate (3)

Weighted Average Coupon (WAC)
(1) Contractual Interest Rate represents the interest rate indicated in the Promissory Note
(2) Appliclable Interest Rate represents the interest rate after rate reductions, if applicable, are applied
(3) Actual Interest Rate represents the interest rate when borrower incentive programs and rate reductions, if applicable, are applied

[^0]:    * In accordance with the Servicer's current policies and procedures, after September 1, 2017 loans subject to bankruptcy claims generally will not be reported as a charged- off unless and until they are delinquent for 120 days.

[^1]:    WAC reflects WAC3
    To conform with company standard reporting these sections now include Princial and Interest Accrued to Capitalize
